## PRODUCT DESCRIPTION

The SCT-1026 is a Pelco to Kalatel control code translator designed to permit control of Kalatel cameras from Pelco controllers. It receives Pelco RS-422 commands and re-transmits them as Kalatel RS-422 commands. There are four independent Kalatel outputs.

Internal switches are used to configure the operation of the code translator. It will work with Pelco "P" or "D" code. The Kalatel output can be Digiplex II or Digiplex III at high or low baud rates.

The Kalatel address can be offset by 1 from the Pelco address, so Kalatel Camera 0 can be used.

Input and output connections are made with mating screw terminal connectors. Front panel LEDs indicate status of power, receive, and transmit.

There is an optional 19" rack mount panel (one rack unit high).

## SPECIFICATIONS

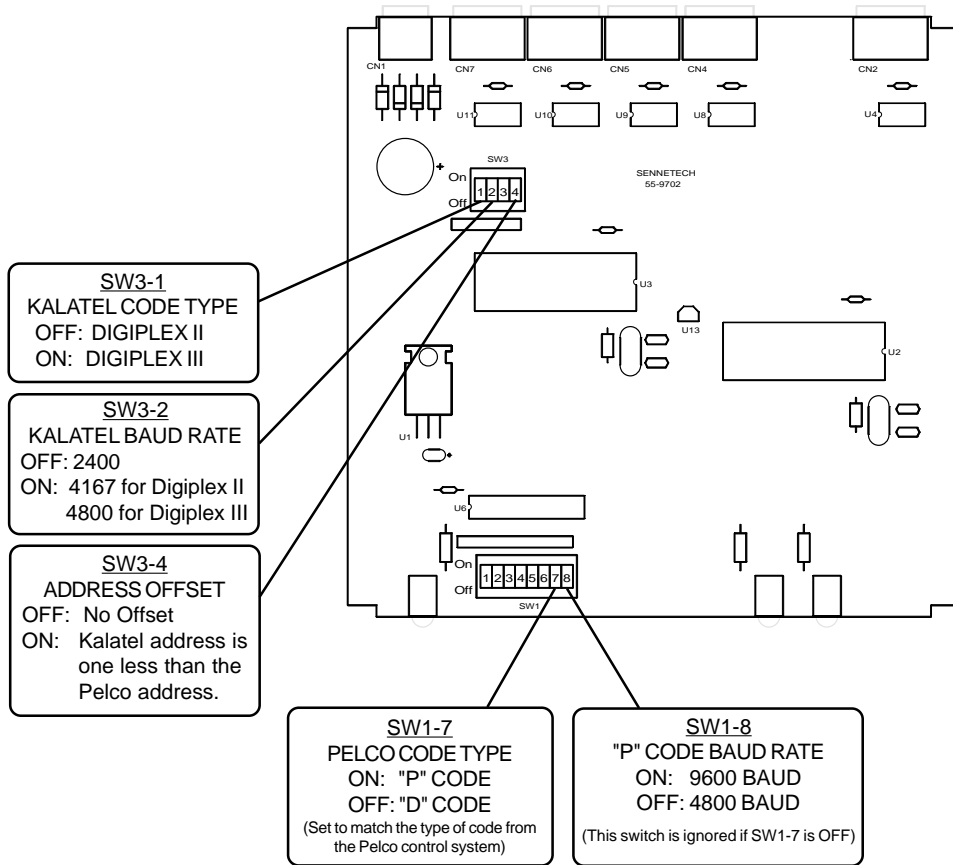

SIZE:	5.57"W x 1.52H x 5.45D
WEIGHT:	1.5 lbs.
POWER:	9Volt to 15Volt AC or DC at 75ma
INDICATORS:	Front panel LEDs: Power, Rx, & Tx
PELCO RS-422 INPUT:	(1) mating 3-pin screw terminal connector
KALATEL RS-422 OUTPUTS:	(4) mating 3-pin screw terminal connectors

## SETTING THE SWITCHES

To set the configuration switches, remove the back panel, which is secured by two screws. Then slide the cover back to expose the switches. The switches can be changed while the code translator is powered up and the new settings will take effect immediately.

Switch 1 sets the Pelco parameters.

Switch 3 sets the Kalatel parameters.

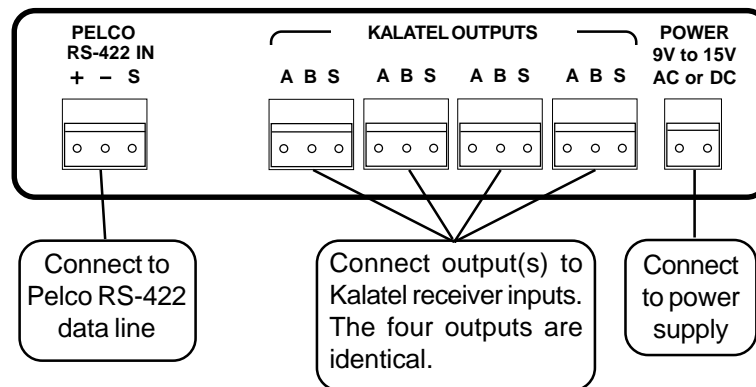

## INSTALLATION

### FRONT PANEL

### BACK PANEL

To install the case on the rack mount frame, remove the front panel and the plastic bezel. The rack mount frame takes the place of the bezel as shown below.

## OPERATION

Pan, Tilt, Zoom, Focus, Iris commands, and Presets 1-64 are converted directly.

Pelco Aux commands and Presets 80 to 90 are converted to additional Kalatel commands. These commands have different names on various Kalatel controllers.

<u>Pelco command</u>	<u>Kalatel KTD301</u>	<u>Kalatel KTD304</u>	<u>Kalatel KTD304R</u>
Run Pattern	Auto	Auto	Auto
Aux1 On/Off	Aux 1 or Off		
Aux2 On/Off	Aux 2 or On		
Aux3 On/Off	Open
